

**The Community Committee presents**

# **An Academic Roundtable**

As you may know the Community Committee hosted a Town Hall Meeting this past February to discuss these complex questions: *What does the McNear community look like? What is your role in it? and What do you want your children to take from their time here?* For those of you who attended, thank you for sharing your thoughts and ideas — the evening generated very useful and relevant information!

One of the strong themes that emerged from the evening was a call for increased academic achievement and celebration. **We now invite you to return to the table for a more in-depth discussion about what “increased academic achievement and celebration” might look like.** Moderated by Jason Sutter and the Community Committee, we will share ideas to better understand desires and examples of academic achievement for our children. And once again, it’s critical that all interested voices be heard. Please bring your ideas and your commitment to this casual and constructive forum.

**Thank you for your commitment to McNear’s children!**
